SUBJECT INDEX

(Page numbers in *Italics* refer to abstracts)

A

- Abdomen**, aortography of, grave spinal cord lesions after, 151
- Acid(s)**
ethacrynic
diuretic action of, in man, 5, 467, 471
hypotensive effect of, 471, 661; compared with hydrochlorothiazide, 471
parenteral administration of, in treatment of pulmonary edema, 792
fatty, induction of thrombosis and death by, in dogs, 790
salicylic. *See* Aspirin
- Actin**, cardiac, sulphydryl groups of, 473
- Actomyosin**
in hog carotid artery, actomyosin-like protein, 143
in rabbit heart ventricle, mean content of, 145
- Adrenalin and noradrenalin**, cats' responses to, during hypoxia, hyperventilation, and hyperoxia, 475
- Age**
age-related changes and lipid in thoracic duct wall, 899
as related to cardiodynamics of normal human heart, 144
effects of age and immobilization on incidence of postoperative thromboembolism, 790
heart volume and other anthropomorphic data in old vs. young men, 943
- Aldosterone**, effect of, on orthostatic circulatory failure, 471
- Aldosteronism**, primary, effect of sodium thiosulfate loading on diagnosis of, 941
- Amotriphene**, antiarrhythmic properties of, 930
- Anastomosis**
Blalock-Taussig
subclavian steal in, 241
10-15-year follow-up, 308
of cava-pulmonary artery, 172
of coarctation in elderly patients, 209
- Aneurysm(s)**
of aorta
dissecting
in *Salmonella*-aortitis of patient with Hufnagel valve, 755
prognosis of, 665
due to aortic valve stenosis, 127
false, mycotic, following aortic valvular prosthesis, 575
of ruptured aortic sinus, 152
arteriovenous
hemodynamic effects of cerebral, 696
of sinus Valsalvae, ruptured into pulmonary artery, pathogenesis of, 307
superior vena caval system, aneurysmal dilatations of, 312
- Angina pectoris**
hemodynamic studies during, 409
treatment
effect of beta-adrenergic-blocking agent and nitroglycerin on exercise tolerance in, 869
effect of sympathectomy on EKG and effort tolerance in, 467
- Angiocardiography**
angiocardiographic findings in congenital cyanotic heart disease, in adults, 306
angiocardiographic study of atrial stroke volume and work, 625
angiocardiographic demonstration of intramyocardial sinusoids, 466
cardiac output during—effect of contrast medium on circulatory dynamics, 234
coronary, by percutaneous transaxillary approach, 308
hemodynamic consequences of injection of radiopaque material into left heart, 730
improvement of angiocardiograms by use of Loge-tron, 153
measurement of left ventricular volume in acquired valvular insufficiency 374
pulmonary hypertensive episodes after sodium metrizoate angiography, 944
- Angiography**, in evaluation of swollen limbs, 946
- Angiotensin**
circulatory effects of, in rheumatic heart disease, 938
myocardial actions of, 623, 937
prolonged i.v. infusion of, in normal dogs, 148
- Anoxia**
isolated ductus arteriosus, response of, to oxygen and, 145
hypoxemia and anaerobiosis in congenital heart disease, related to lactate/pyruvate levels, 465
- Antazoline**, antiarrhythmic properties of, 931
- Antiarrhythmic drugs**, trials of
amotriphene, 930
antazoline, 931
guanethidine, 623
- Antibodies, serum**
anti-heart, in postpericardiotomy and postmyocardial-infarction syndromes, 936
in heart muscle in rheumatic fever, detected by indirect immunofluorescence, 151
- Anticoagulant therapy**, long-term, emotional reactions to, 934
- Aorta**
abdominal aortic grafts, 308
abnormal aortic-left ventricular communication, congenital, 564
aortic sinus aneurysms, rupture of, into right ventricle, 152
ascending aortic blood-flow, measurements of, 935

- dissecting hematoma or aneurysm in, prognosis of, 665
- hydrodynamics of blood flow in, 143
- impedance, alterations of, and effect upon performance of ventricles, 626
- insufficiency of aortic and mitral valves, assessed by angiocardiology, 469
- pressure in, during ventricular ejection, as determinant of cardiac performance, 146
- regurgitation in aortic valve complicating subaortic stenosis, 163
- saccular aneurysm in, due to aortic valve stenosis, 163
- Salmonella* aortitis in patient with Hufnagel valve, 755
- surgery on, results of, 152
- valvular aortic stenosis, recurrence of, after open aortic valvuloplasty, 448
- Aortography**
- abdominal, spinal cord lesions after, 151
- translumbar, present indications and techniques, 469
- Arrhythmias**
- due to digitalis intoxication, reversed by pronethalol, 786
- drug-resistant, treated by direct-current shock, 304
- fibrillation
- atrial
- reversion to sinus rhythm, attempted, 304, 785;
- changes in cardiac output with, 670
- chronic flutter in brothers with Marfan's syndrome, 572
- use of guanethidine as antifibrillatory agent, 623
- ventricular
- due to cardioversion, 932
- during interim pacing of heart by bipolar endocardial electrode, 785
- murmur, continuous, bronchial circulation in multiple peripheral pulmonary artery stenosis, 759
- in myocardial infarction
- incidence of, 468, 834
- monitoring of, 305
- post-surgical, after open-heart repair of tetralogy of Fallot, 628
- tachycardia, ventricular, experimental control of, in dogs, 475, 786
- See also separate entry under Tachycardia(s)
- See also Antiarrhythmic drugs
- Arteritis**
- in polymyalgia rheumatica, 312
- Takayasu's, 313, 629
- surgical treatment of, 947
- Arteriography**
- femoral, obliterative arterial disease of lower limbs studied by means of, 306
- renal, selective renal catheterization and arteriography, risks in, 943
- Arteriolitis**, in Raynaud's disease, 312
- Aspirin**, treatment of rheumatic fever with, compared to phenylbutazone, 942
- Atheroma**, spontaneous, in sheep, 305
- Atherosclerosis**
- in different parts of (human) atrial system, 305
- "essential," myocardial infarction due to, 789
- experimental, pathogenesis of, 933
- femoro-popliteal arteriosclerotic obstruction, treated by thromboendarterectomy, 947
- localization of foci in cervical vertebral artery, 788
- sugar intake in patients with occlusive, 469
- in squirrel monkey, 305
- Atrium**
- fibrillation in
- chronic flutter in brothers with Marfan syndrome, 572
- changes in cardiac output with reversion of atrial fibrillation to sinus rhythm, 670
- murmurs, systolic, transmitted from pulmonary artery into left atrium, 935
- pressure curve in right atrium of human heart, related to cardiac dynamics, 144
- roentgenology of atrial appendages, 307
- septal defects in infants, 791
- spontaneous dilatation of right atrium in pregnancy, 306
- stroke volume and work, angiocardiology study of, 625
- termination of left superior vena cava in, associated with atrial septal defect and absence of coronary sinus, 906
- type B atrial receptors, natural stimulation of, 147
- Autoradiography**, with isotopes, 943
- B**
- Bezold-Jarisch reflex**, in dog, receptor areas and nervous pathways of, 626
- Blalock-Taussig anastomosis** for tetralogy of Fallot
- subclavian steal in, 241
- 10-15-year follow-up, 308
- Blood coagulation, defects of**
- associated with homocystinuria, 463
- effects of Dextran on, 464
- fibrinolytic activity of streptokinase in dissolution of thrombi, *in vitro* vs. *in vivo*, 464
- Blood flow**
- aortic
- hydrodynamics of, 143
- human ascending, measurements of, 935
- pressure-flow studies in hypertrophic subaortic stenosis, 310
- coronary
- carotid chemoreceptor reflex effects on, 145
- electromagnetic measurement of, in major coronary arteries, 625
- in left coronary artery of dog, measurement of, 145
- in mitral stenosis, performance of, 824
- Blood plasma**. See Plasma
- Blood pressure**
- arterial
- factors causing exaggerated respiratory variation, time cause of, 142
- relation of to transverse diameter of heart in compensated hypertensive heart disease, 542
- of adults, by race and area, 472
- systemic
- response to changes in right ventricular function, 147
- Blood viscosity**, in health and in coronary heart disease, 932
- Body build**, effect of, on QRS voltage of electrocardiogram in normal men, 77
- Brockenbrough method**. See Catheterization

C

Calcification

- in abdominal aorta, 933
- in coronary artery, detection of, *in vivo*, 468

Cardiac

arrest

- cardiopulmonary resuscitation, closed-chest method, 315, 623, 641, 930; complications following, 786
- right ventricular volumes in patients with and without heart failure, 531

dynamics

- cardiac function in primary myocardial disorders, 470
- effect of acetyl strophanthidin therapy on, in isolated heart with and without hypoxia, 624
- effect of guanethidine on, in thyrotoxicosis, 219
- effects of tachycardias (atrial and ventricular) on cardiovascular dynamics, 147
- increased aortic pressure during ventricular ejection, as determinant of cardiac performance, 146
- pressure curve in right atrium of human heart, as related to, 144
- pressures and pulses (editorial), 481
- reflex increase in heart rate from distention of pulmonary vein-atrial junction, 146
- relation of age to contraction, ejection and relaxation of human heart, 144
- stroke volume and peripheral resistance at constant fixed heart rate during isoproterenol infusion, 417
- ventricular fusion beats during electric stimulation, 651

output

- during angiocardiology, 234
- calculation of, from indicator-dilution curves in presence of mitral regurgitation, 711
- changes in, with reversion of atrial fibrillation to sinus rhythm, 670
- effects of smoking on, in patients with healed myocardial infarction, 42
- in pressor response to carotid occlusion, assessment of, 314
- of healthy subjects, as determined by carbon dioxide rebreathing, 145
- pharmacodynamic effects of glucocorticoids on, in normal subjects and in patients in shock, 523

rupture, 202. *See also* Aneurysm, dissecting; Infarction, myocardial

shunts

- between superior vena cava and distal right pulmonary artery, treated by anastomosis, 172
- detection of, safety of hydrogen in, 705
- left-to-right
 - decreased left lung vascularity in, 307
 - detection of, by use of esophageal Geiger-Müller tube, 95

surgery

- anastomosis
 - of cava-pulmonary artery, 172
- open-heart
 - arrhythmias after, in repair of tetralogy of Fallot, 628
 - blood-response patterns in, 628
 - causes of death after, 628
 - occasional, 161

- in pulmonic stenosis with intact ventricular septum, 190
- total correction of tetralogy of Fallot, 385
- valvuloplasty, open aortic, 448

See also Surgery

Cardiomegaly, idiopathic, natural history of, 309

Cardioscopy, without thoracotomy, 947

Cardiovascular

- diagnosis
 - history of classification, 644
 - disease
 - effect of hyperbaric oxygen on, 454
- See also* Cardiac; Heart disease

Catecholamine(s)

- depletion of, in thyrotoxicosis, 219
- in portal venous blood in portal hypertension, 937
- in traumatic shock, 940
- myocardial concentration of, related to thyroid state, 146
- uptake and metabolism of tritium-labeled catecholamines, effects of reserpine and other drugs on, in human and rabbit cardiovascular systems, 469

Catheterization

cardiac

- cineradiographic studies of systolic click in aortic valve stenosis, 842
- fatal right ventricular perforation during, 470
- fiberoptics used in, 328, 344
- in infants, associated with angiocardiology, 935
- left-heart catheterization with micromanometer via axillary artery, 313
- modified Brockenbrough method, in septal puncture of left heart, 103
- of patients with Hunter-Hurler syndrome, 134
- of patients with interventricular septal defect, 54
- of urinary bladder
 - measurement of unilateral renal function by external ureteral compression, 679
- percutaneous direct, 935
- renal, and arteriography, risks in, 943

Chagas' disease (trypanosomiasis), 273. *See also* Myocardium

Cholesterin, free and esterified, determination of, 788

Cholesterol

- metabolism
 - absorption enhanced, in rats, by safflower oil diet, 787
 - serum levels of, as compared with serum triglycerides, 788
 - with arterial hyperplasia, 933
- See also* Hypercholesteremia

Chordae tendineae, rupture of, succeeded by mitral regurgitation, 506

Cineradiography

- application of biplane cineangiocardiology to acquired mitral disease, 306
- early systolic click in aortic valve stenosis, cineradiographic studies of, 842

Contrast medium, effect on cardiac output during angiocardiology, 234

Cor pulmonale (pulmonary heart disease)

- chronic
 - incidence and etiology of, in Delhi, 941

pathologic physiology in, 148
tricuspid valve, competence of, 517
in cystic fibrosis of the pancreas, 940

Cor triatriatum. *See* Mitral valve

Cyanosis

"cyanotic heart disease," congenital
angiocardigraphic findings on, in adults, 306
massive pulmonary arteriovenous fistula in neonate—correctable "cyanotic heart disease," 762
paroxysmal hyperpnea in, 66
tetralogy of Fallot, cyanotic, arrhythmias after surgical repair of, 628

D

Dextran, effect of, on coagulation mechanism, 464

Dextrocardia, associated with transposition of great vessels and ventricles, 466

Diabetes

and ischemic heart disease, as related to dietary fat and sugar intake, 463

Diagnosis, cardiovascular, history of classification, 644

Diet

cholesterol, absorption of, enhanced in rats by safflower oil diet, 787
fasting, effect of, on glucose and palmitate metabolism of perfused rat heart, 147
fat, intake of, in relation to ischemic heart disease and diabetes, 463
sugar, intake of
in patients with occlusive atherosclerotic disease, 469
in relation to ischemic heart disease and diabetes, 463

Digitalis

glycosides, measurement of plasma levels of, 228
intoxication, reversed by beta-adrenergic blockade with pronethalol, 786
tolerance
effect of total body perfusion on, 939
unusual, 938

Diphosphopyridine nucleotide, reduction in, effect on swelling of rat heart sarcosomes, 142

Diuresis

effect of ethacrynic acid on, 5, 467
with mannitol in anesthetized dog, 693
with triamterene, in congestive heart failure, 467

Dumping syndrome. *See* Syndrome

Dyspnea, associated with chest pain and emboli in cor pulmonale, 464

E

Ebstein malformation of left atrioventricular valve, associated with corrected great vessel transposition, 119

Edema

as complication of treatment with guanethidine, 485
produced by guanethidine, 490
pulmonary
roentgenologic findings on, 792
treatment with parenteral ethacrynic acid, 792
treatment of
with ethacrynic acid, 5, 467, 792
with triamterene, 467

Elastorrhexia, systemic. *See* Syndrome

Electrocardiogram

changes in, after correction of tetralogy of Fallot, 394
changes during rapidly induced deep hypothermia, 794
differential morphology of anomalous ventricular complexes of RBBB-type in lead V₁, 551
effect of body build on QRS voltage of, in normal men, 77
effect of human blood-pH variations on, 369
effect of sympathectomy on, in angina pectoris, 467
findings among adult population of total natural community, 888
"peri-infarction" block, as shown on, 403
Q-T interval in atrial fibrillation, with and without mitral stenosis, 429
